

Wu Yee Sun College
The Chinese University of Hong Kong

SMART ENERGY CONSUMPTION

We are excited to announce the **Intra-hostel Air-conditioning Usage Reduction Competition** and **College Energy-saving Competition**! This is a fantastic opportunity to contribute to a greener environment and win amazing prizes.

According to [Hong Kong Observatory](#), 2024 was Hong Kong's warmest year on record, with extreme weather events becoming more frequent and intense. In particular, the mean temperature for autumn (September to November) reached 26.5 degrees, the highest on record. It showcased the urgent need for climate action. We encourage everyone to take part and make a difference. Simple actions like adjusting your air-conditioning settings, using fans, and keeping windows closed while using air-conditioning can significantly reduce energy consumption.

Energy-saving tips: Student Energy Ambassadors 2024 "Sustainable Steps" ([HERE](#)) | CLP ([HERE](#)) | Energy Saving for All ([HERE](#))

Why Participate?

- **Save Energy:** Help reduce our collective carbon footprint.
- **Win Prizes:** Enjoy delicious treats from College Canteen and Café, and an opportunity of CASH PRIZE
- **Build Community:** Engage with fellow Sunnies in a fun and meaningful way.

	Intra-hostel Air-conditioning Usage Reduction Competition	College Energy-saving Competition
Eligibility	All resident students of Wu Yee Sun College student hostels	All Wu Yee Sun College students
Enrolment	All residents are automatically enrolled	Complete the followings on or before 30 November 2025 : 1. Online survey (Click HERE); AND 2. Post one energy-saving action you have taken using your own Instagram account with hashtag #WYSSavePower and keep the post published until 31 March 2026

Competition Period	Round 1: October 2025 Round 2: November 2025	October 2025 – January 2026 <i>(compare electricity consumption with October 2024 – January 2025)</i>
Competition Rules	● The hostel room with the lowest air-conditioning usage during the competition period will be declared the winning hostel rooms. ● Max. 3 hostel rooms will be awarded. In case of a tie, winners will be selected through a random draw. ● Data retrieved on College database will be considered final. College reserves the right of the final decision.	● Total electricity consumption of the College building* is reduced by more than 5% during October 2025 to January 2026, compared to the same period in the previous year (October 2024 to January 2025). ● If the targeted reduction in electricity consumption is achieved, students who complete this online survey and post an energy-saving action taken using their own Instagram account before submission deadline will be entered into a lucky draw. ● Late or incomplete submission will NOT be handled. Data retrieved on College database will be considered final. Presenting the original post may be required for prize collection. College reserves the right of the final decision. <i>*Electricity consumption of Catering Outlets, Master's Lodge, Wardens' Flats and Visitor's Flats are excluded.</i>
Prizes	Each resident of winning hostel room can win FREE MEALS ● TWO meals of 3-dish meal of College Student Canteen & ● TWO lunch sets of College Café	Each lucky draw winner can receive a cash prize of \$100 (Up to 20 winners).
Result Announcement	Round 1: First-week of November 2025 Round 2: First-week of December 2025	Early-February 2026

Let's work together to create a more sustainable living environment. If you have any questions or need tips on how to save energy, feel free to reach out.
